## Taiwanese Power Cord

Quail Electronics, Inc. would like to present its Taiwanese Cord, series number 7500.

Most products sold in Taiwan must be approved in accordance with the regulations as set forth by the BSMI (Bureau of Standards, Metrology and Inspection).

*Examples of products that are covered by the requirements include:*

- Televisions
- Copiers
- Information Technology Equipment
- Telephones
- Fax machines
- Video Recorders
- Electric tools
- Microwave ovens
- General electric household appliances
- Large scale industrial products

The Bureau of Standards, Metrology, and Inspection (BSMI) formerly the Bureau of Commodity Inspection and Quarantine (BCIQ) is the agency regulating most ITE equipment imported or manufactured in Taiwan. The EMC Regulations came into effect in 1997. All commodities imported or manufactured domestically manufactured are subject to the regulations. U.S. Technologies facilities are authorized for the approval and acceptance of data to the Taiwan regulations. BSMI is also responsible for the establishment and promotion of standards, the product certification and registration, the inspection of import and export commodities and the laboratory accreditation scheme.
